

Additional Information First-come-first-served (FCFS)

- All FCFS-offers on PRISMA are add on products to already existing storage contracts and are therefore limited to existing storage customers at the respective storage location of the product at offer.
- The products are offered at published prices. The specific price publication is subject to contingent changes based on economic reasons. The offered price is at any time only the published price at the time the bid is placed. The offers are provided on a non-discriminatory basis as they are valid for all of the potential existing customers.
- Concluded contracts are assigned to the existing storage customer account of the customer at the respective storage. If several customer accounts for one customer exist at one storage, this is due to differentiation by contract type. **Customers whose contract(s) feature an injection-based variable fee need to book capacity via an offer which is marked with the supplement “[variable fee]”.**
- Capacity allocation is subject to availability. The contract is concluded when the storage customer received an electronic booking confirmation from astora. All terms and conditions of the existing storage services agreement between astora and the storage customer apply to the additional booking.

Please note that the availability of the booked product may be subject to temporary limitations according to Article 27 General Terms and Conditions for storage access due to maintenance measures in case the booking period exceeds one month.

Special Discount at Jemgum UGS (valid from 1st April 2022 until 1st April 2023 or until further note)

A special discount of 100% on additionally booked injection and withdrawal capacity at the Jemgum storage location until 01.04.2023 and until further notice is granted under the following conditions:

- The special discount for withdrawal capacity is only valid for single withdrawal rate bookings made in the period from 01.04.2022 - 01.11.2022 and is only granted if the allocated net nomination per hour (sum of all injection nominations minus sum of all withdrawal nominations on Jemgum-storage-location-level) before customer's nomination is positive and only insofar as the net nomination (hourly calculated) is reduced by the customer and only as long as the net nomination is greater than zero. With other words: it is granted to the extent that a customer's behaviour reduces the storage injection. The published hourly values published under <https://www.astora.de/en/nc/transparency/dynamic-data/astora-storage-facilities/> adjusted by the customer's nomination shall form the basis for the calculation.
- The special discount for injection capacity applies in the period from 01.11.2022 - 01.04.2023 if the allocated net nomination (ex customer nomination) is negative and only insofar as the amount of the net nomination (hourly calculated) exceeds the booked additional capacity and as long as the net nomination is smaller than zero. Customer behaviour shall reduce the storage withdrawal. The published hourly values published under <https://www.astora.de/en/nc/transparency/dynamic-data/astora-storage-facilities/> adjusted by the customer's nomination shall form the basis for the calculation.
